

Create a New Product Status

Modified by Phil Loughhead on Jun 15, 2017

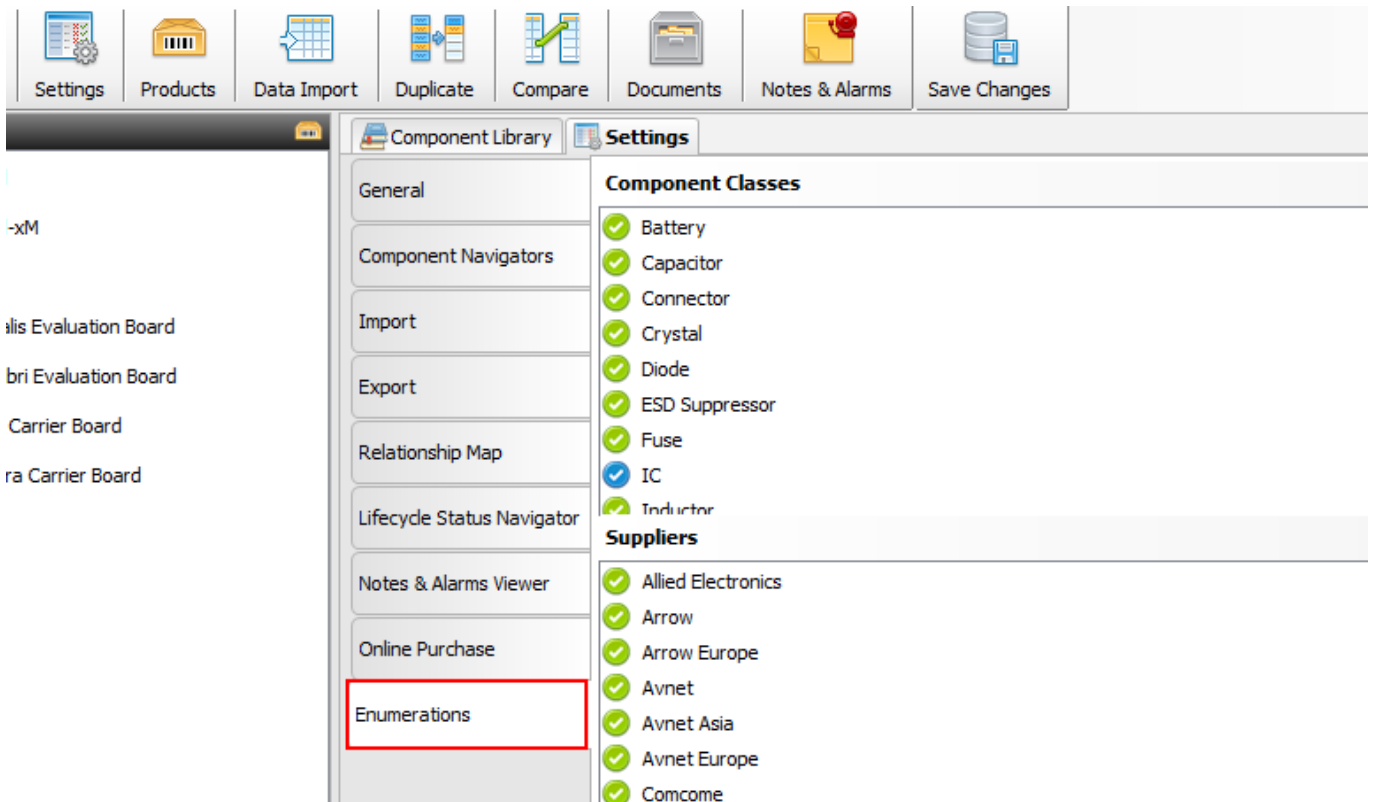

Step 1

Click on the settings button in the main toolbar to open the settings page.

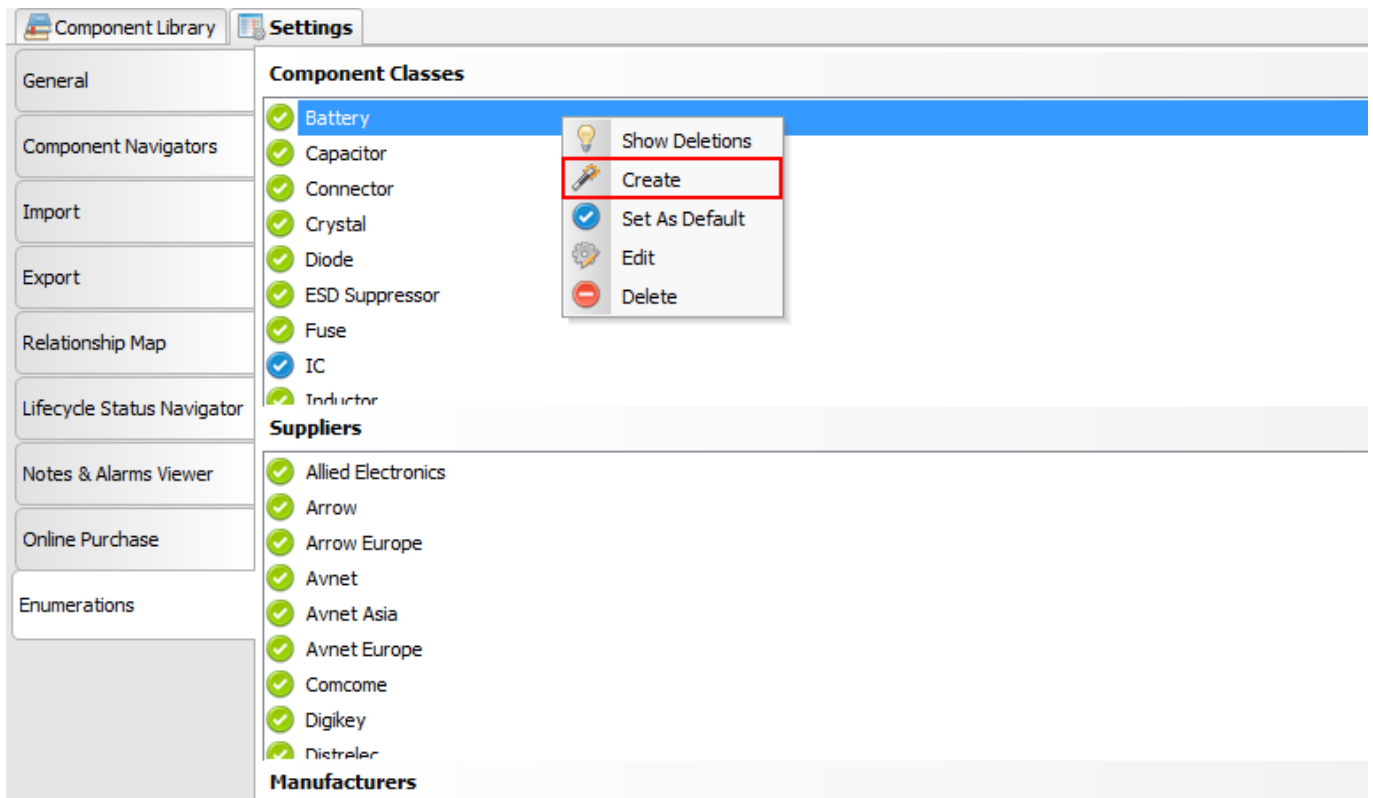

Step 2

In the setting tab page, select the enumerations tab on the left hand side of the window.

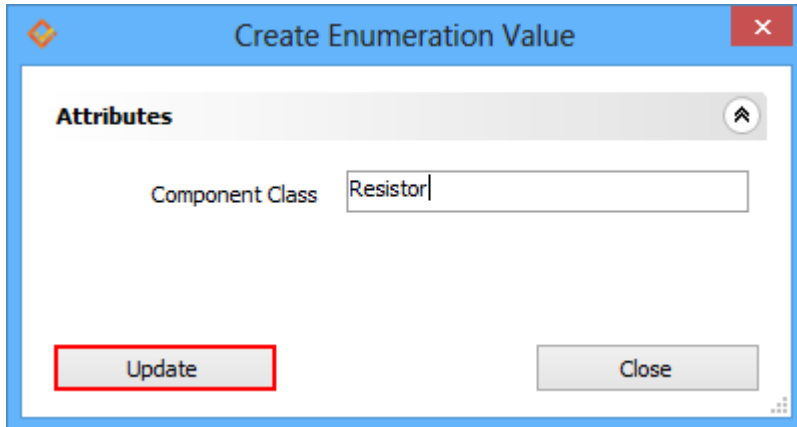

Step 3

Right-click in the enumeration section for which you want to create a new value and select the create menu option.

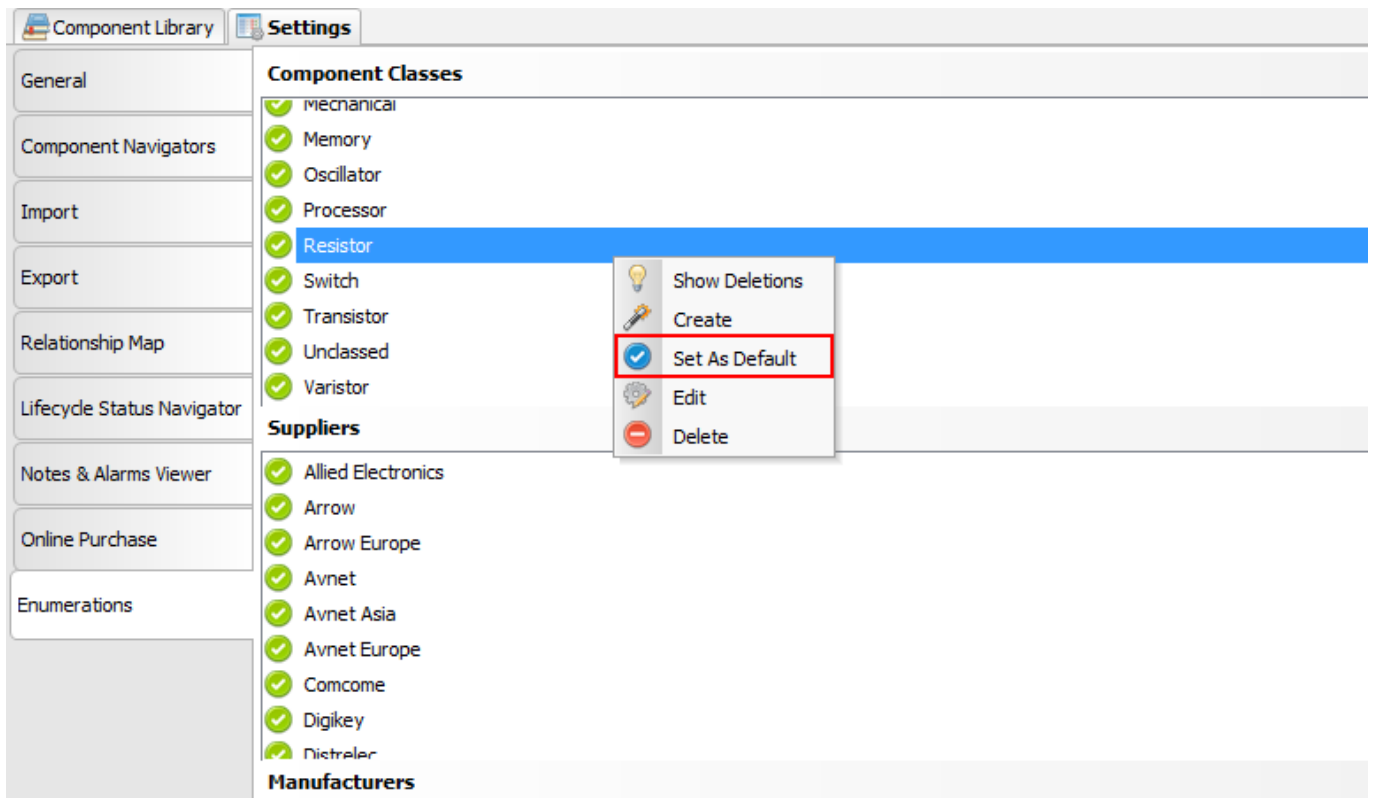

Step 4

Specify the name of the new enumeration value in the popup dialog box and click create.

Step 5

After the new enumeration value has been successfully created, the enumeration section will be automatically refreshed. To set the default value to the new enumeration value, right-click in the enumeration section and select the set as default menu option.
